IDENTIFICATION GUIDES - PLANTS

Trees

Trees of the Southeastern United States

SCI REF QK125.D791

Includes a key, range maps, and color photographs.

Complete Trees of North America: Field Guide and Natural History

SCI REF QK481.E381

Has keys for each group of trees. Includes range maps and drawings.

[Key to Leaves of Virginia Trees](#) by Dr. Jeff Kirwan and James Ward

This web site is meant for a 4-H project, but is very straight-forward and may be very helpful in identifying local trees.

[What Tree Is That?](#) from the National Arbor Day Foundation

This provides an online guide to some North American trees as well as a tutorial about identifying characteristics of trees.

Grasses

Field Guide to the Grasses, Sedges, and Rudges of the United States

Before & After - Subject Interface

The screenshot shows the 'Database Library' page of the University of Wisconsin Libraries. The header features the university's logo and the word 'LIBRARIES' in large white letters on a red background. Below the header, there is a navigation bar with links to 'Home', 'Database Library', and a 'Take me to' dropdown menu set to 'MadCat'. The main content area is titled 'Database Library' and includes a 'By Subject' link. A 'Search by Subject' section provides instructions: 'Search by Subject: Search databases specific to your area of study.' To the right of this section is a box labeled 'Temporarily Saved Records'. The page displays a grid of subject categories, each with a link to search databases in that field. The categories are organized into three columns. The first column includes subjects like Africa / Middle East, Agriculture, Animal Science / Vet Medicine, Anthropology / Archaeology, Art / Art History / Architecture, Atmospheric / Oceanic / Climate Studies, Biochemistry, Biology / Zoology, Business, Chemistry / Chemical Engineering, Civil / Environmental Engineering, Classics, Communication / Journalism / Rhetoric, Computer Science / Electrical Engineering, and Dance. The second column includes Family Studies, Film / Television, Food Science / Nutrition, Gender / Sexuality / Women's Studies, Genetics / Molecular Biology, Geography, Geology, Government, History - General/Worldwide, History - U.S./Canada, History of Science, Medicine, Technology, Industrial Systems Engineering, International Affairs, Latin America / Caribbean / Iberia, and Law. The third column includes Medicine / Public Health, Microbiology, Multidisciplinary / Dissertations, Music, Newspapers / Current Topics, Nursing, Pharmacy, Philosophy, Physics / Astronomy, Plant Sciences, Political Science, Psychology, Reference, Religion, and Russia / Eastern Europe / Central Asia. The bottom of the page shows a partial view of the same subject categories, indicating a scrollable list.

Before & After - A-Z List

The screenshot shows the University Libraries E-Resource Gateway website. At the top, there is a red banner with the word "Libraries" in white. Below the banner, the navigation bar includes "Home » E-Resources/Article Databases" and a "Take me to:" dropdown menu set to "MadCat" with a "Go" button. A link to "Ask a Librarian" is also present. A yellow banner with a flower icon contains a notice: "Please Note: The E-Resource Gateway has been replaced by the Database Library as of June 9th." Below this, a navigation bar lists links: "Select a Database", "QuickSearch", "Custom Search", "My Research", "Help", "Exit", "Database Library", and "Guest (Login)". The main content area is titled "Search | Databases Found" and "Select a Database to Search". It features three tabs: "Database Titles" (selected), "Subject Browse", and "More Options". Under the "Database Titles" tab, there is an alphabetical list of links from A to Z, plus an "Other" link. Below the list, there is a search form with a "Database Titles:" label, a text input field, and three radio buttons: "Contains" (selected), "Starts with", and "Exact". There are also two radio buttons for "Show all databases" (selected) and "Show only databases available to guests". A "Search" button is located below the form. At the bottom, an example text reads: "Example: Use **psyc*** for HAPI: Health & Psychosocial Instruments, PsycArticles, PsycINFO (Psychological Abstracts), etc."

Before & After - A-Z List

The screenshot shows the 'Database Library' page of the University of Wisconsin Libraries. The header features the university's logo and the word 'LIBRARIES'. Below the header, there's a navigation bar with 'Home » Database Library' and a 'Take me to:' dropdown menu set to 'MadCat'. The main heading is 'Database Library', with a link to 'Ask a Librarian'. Below this, there's a sub-navigation bar with 'Database Library Home » By Title' and links for 'By Title', 'By Subject', 'Databases with Pre-1970 Content', and 'Help'. The 'By Title' section is active, showing a search box for 'database names and descriptions' and a 'Go' button. To the right, there's a box for 'Temporarily Saved Records'. Below the search box, it says '1303 databases'. An alphabetical index is provided, with 'A' through 'Z' and a '1' for the first page. The first database listed is '17th and 18th Century Burney Collection Newspapers', which is described as a collection of early English news media. The second database is '19th Century British Library Newspapers', described as a searchable archive of 50 newspapers from Victorian Britain. The page is dated Monday, October 31, 2011.

UNIVERSITY OF WISCONSIN-MADISON
LIBRARIES

Home » Database Library

Take me to:

Database Library [Ask a Librarian](#)

[Database Library Home](#) » [By Subject](#) » [Religion](#) | [Create Widget](#) [By Title](#) | [By Subject](#) | [Databases with Pre-1970 Content](#) | [Help](#)

Create Widget: Religion

Display Options

Show title?	<input type="button" value="yes"/>
Show search box?	<input type="button" value="yes"/>
Show databases?	<input type="button" value="yes"/>
Show specific section?	<input type="button" value="ALL"/>
Include CSS?	<input type="button" value="no"/>

Including the CSS works imperfectly. If you need to, it's better to define CSS styles for the snippet in the external website itself.

Include Options

1. Javascript widget

Should work in any external website that allows javascript, but viewers' browsers must support javascript.

```
<script type="text/javascript" charset="utf-8"
src="http://xerxes.library.wisc.edu/wisc/embed/subject/religion?
gen_full_uris=true&disp_embed=true&disp_embed_css=false&format=embed_html_js"></script><noscript><a
href="http://xerxes.library.wisc.edu/wisc/embed/subject/religion"
title="Religion" >Religion</a></noscript>
```

Religion
